I am an experienced IT professional with a diverse background in technical support, digital marketing, and business development. Since 2017, I have successfully managed personal social media profiles, YouTube channels, and SEO projects. My career includes roles such as IT Support Assistant, Photoshop Editor, and Business Developer, where I honed my skills in technical troubleshooting, image editing, and lead generation through social media. I am a fast learner with a passion for technology and digital marketing, eager to leverage my expertise to contribute effectively to your team.
